ROCKAWAY BOROUGH SCHOOLS-MAY 23, 2019

**5TH GRADERS  
ENJOY A DAY WITH  
THE SOMERSET  
PATRIOTS**

## TAKE ME OUT TO THE BALL GAME

On Wednesday May 22nd, fifth graders at Thomas Jefferson traveled to see the Somerset Patriots play the Sugar Land Skeeters. Besides watching the minor league game, they also took part in a STEM Day program sponsored by the Patriots. In addition to some pregame discussions pertaining to batting and throwing logistics involving angles and ball projection, students were able to participate in a number of STEM activities set up around the concourse. Other students simply enjoyed the beautiful weather and visited with the team mascot.

The entire STEM initiative for Baseball Days for the Somerset Patriots is sponsored by Sanofi under the umbrella of their *Students 2 Science* program which not only hosts events at the stadium, but also offers outreach educational programs to districts across the state.
