ROCKAWAY BOROUGH--DECEMBER 3, 2018

MRS. MC GILL'S 4TH
GRADE
GINGERBREAD
CREATION

WHAT'S IN A THEME ESPECIALLY A GREEN THEME?

Well, the students in Mrs. McGill's 4th grade English Language Arts class found out this past month when they designed a gingerbread project for the 27th Annual Gingerbread Wonderland and Craft Show at Frelinghuysen Arboretum. While incorporating their own study about the importance of theme in literature, they worked collaboratively to develop a gingerbread creation that met the criteria of the required green theme, namely an entry that told a story about plants, the environment, or the natural world. All students contributed to the project, each adding their own special touch to different parts of the finished product. In addition, some 6th graders anonymously acted like "elves" to help out when needed.

For all interested parties, this 4th grade Gingerbread project will be on display at the Arboretum from November 30th through December 9th.
